Executive Summary

The team reviewed the stable Phase 1 transcription pipeline and confirmed the Phase 2 meeting analysis workflow.

Detailed Summary

The discussion focused on preserving the working transcription pipeline while layering Gemini-powered meeting analysis on top. The team agreed that the speaker-wise transcript should feed cleanup, summary generation, key discussion points, decisions, and action item extraction.

Topics Discussed

- Phase 1 transcription stability
- Phase 2 meeting analysis
- Gemini-powered extraction

Key Discussion Points

- [00:08 - 00:18] Phase 1 is stable and should remain unchanged. (Speaker 2)
- [00:18 - 00:32] Phase 2 uses the speaker-wise transcript for all analysis modules. (Speaker 1)

Decisions

- [00:08 - 00:18] Keep Phase 1 unchanged. Owner: Speaker 2; confidence: high.

Action Items

Task	Owner	Due Date	Timestamp	Status
Connect the Streamlit UI to the analysis pipeline.	Rahul	Friday	00:32 - 00:45	open

Cleaned Transcript

Speaker 1 [00:00 - 00:08]

Hello team, let's review Phase 2 of MeetScribe today.

Speaker 2 [00:08 - 00:18]

The transcription pipeline is working now, so we should keep Phase 1 unchanged.

Speaker 1 [00:18 - 00:32]

Agreed. We will use the speaker-wise transcript as input for cleanup, summary, decisions, action items, and key points.
